PROFILE

Skilled Full-Stack Developer with a strong foundation in designing, developing, and maintaining dynamic websites. Proficient in HTML/CSS (Bootstrap), JavaScript, and frameworks like React for the front-end and Laravel for the back-end. I am passionate about leveraging technology to solve complex problems and create innovative solutions. With a proven ability to work collaboratively in teams and manage projects from inception to delivery, I bring a results-driven approach to every project I undertake.

PROFESSIONAL EXPERIENCE

PHP Developer

internship

04/2024 – 05/2024

Temara, Morocco

During my internship, I took complete responsibility for developing a website from A to Z. I started by designing the site architecture, then developed the user interface using HTML/CSS (Bootstrap) and JavaScript for a smooth user experience. Then, I integrated the backend with Laravel to manage the server logic, database, and dynamic features. Throughout the project, I ensured maintenance, testing, and optimization of the site to guarantee high performance and good security. This project allowed me to strengthen my skills in Full-Stack development and manage a complete project from start to finish.
